

Chief Engineer

(Starting Date September 2010)

Deluxe Food Group is a North America base company and will be building a unique group of premium food related companies in Vientiane, Laos, including specialty supermarket, restaurants, and cold storage warehouses.

We are looking for an experienced Chief Engineer. The Chief Engineer maintains the company property and facility appearance, comfortable atmosphere throughout building and general functioning of property equipments and systems, applying expertise and knowledge toward the on-going property operation.

Key Responsibilities:

- Oversee the maintenance and continuous operation of all facility systems including, but not limited to:
 - HVAC (Heating, Ventilation & Air Conditioning)
 - Refrigeration and Temperature control systems
 - Electrical (lighting, generators, etc.)
 - Emergency generators and Fire alarms
 - Light construction / repairs
- Routinely inspect facility and all facility equipments
- Perform installation of new or updated equipment
- Proactively address issues and ensures timely completion of all repair orders
- Supervise and manage engineers and maintenance staff including hiring, training and personal development
- Ensure all maintenance logs, service records and work tickets are current, accurate and accessible
- Maintain all infrastructure and compliance documentation for the facilities department including up-to-date building drawings and single-lines as well as documentation mandated for government compliance purposes

Knowledge, Skills and Abilities Required:

- Minimum 5-10 years experience in trade
- Knowledge of the principles, practices, materials, tools, and equipment of refrigeration, air conditioning, and/or heating equipment operation, maintenance, and repair
- Skill in troubleshooting and repair of HVAC related electrical components
- Skill in locating and correcting defects in refrigeration, air conditioning, heating or related equipment
- Skill in the use and operation of tools and equipment used in the repair and maintenance of mechanical equipment
- Skill in analyzing HVAC or refrigeration malfunctions from performance and test equipment readings and determining appropriate repairs
- Knowledge of the occupational hazards and safety precautions of the trade
- University Degree in Mechanical Engineering would be an asset
- Advance communication skills oral and written - Bilingual in Laotian/Thai and English

Term Commitment:

- This is a long term position with unlimited potential to grow
- Minimum 2-years term commitment

Salary: Competitive - Thailand Food Industry Standards

Benefits:

- Medical & Dental coverage, Profit Sharing Plan, Thailand industry standard holidays and more!

How to Apply:

- If you are interested in applying for this position, please send us your resume and a covering letter in **ENGLISH** to deluxefoodgroup@gmail.com - Only shortlisted candidates will be contacted for interview.
